

Application for Adjustment

Regarding plan 24-105587

I am writing this application to apply for a zoning adjustment to the standard for the accessway to exceed the allowed maximum. Presently the planned plat accessways creates a 177' by 20' accessway which is 27' longer than the maximum of 150' allowed. I have done this because of the existing house which makes it infeasible to widen the accessway any further.

As a result, I would like to proceed with the planned plat as drawn.

I sincerely appreciate your attention to this matter.

Best Regards,

Steve Jasperson
