Rachel,

I noticed that new information was added to the Dwelling permit application. I then checked and noticed a previous email from you in my spam folder, so I apologize for the delay. The Historic Design Review is a separate application and process from the dwelling permit. To keep the ball rolling, I created a folder for you under 24-120497-PLN for the historic design review. I transferred the criteria worksheet to the new project from the dwelling permit application. I attached a new application packet for the new project. It will require some different items from the dwelling permit to be complete, but you may be able to use several of the same attachments. On page 2 of the packet, there is an application checklist. Please upload all the items except for the “written statement addressing applicable approval criteria (SRC230), unless you would like to revise the one currently uploaded. If you have any trouble locating anything, please feel free to reach out and I will see if I can help.

Thanks,

Jake Morris, PhD
