Subject: 528 Cottage St Site Plan Review

Hi Gene,

I'm reviewing the Class 1 site plan review to establish occupancy for this office building. As discussed earlier, the site will require a minimum of 8 bicycle parking spaces. The plans indicate the number of spaces will be provided, however, we need to see they meet the development standards of SRC 806.060 (dimensions, rack type, etc.). Could you please submit an updated site plan including that information. That should be all we need to deem the application complete and get a decision issued. Thanks,

Please note, your application, which is incomplete, will be deemed complete upon receipt of one of the following:

- (1) All of the missing information.
- (2) Some of the missing information and written notice from you (the applicant) that no other information will be provided.
- (3) Written notice from you (the applicant) that none of the missing information will be provided.

You have 180 days (April 5, 2025) from the date the application was first submitted (October 7, 2024) to respond in one of the three ways listed above, or the application will be deemed void.
