Good morning,

I wanted to let you know I had one of our lead drivers stop by the location to check things out. Based off the drawings, pictures, site visit, etc., he was saying everything looks good to go. One thing he mentioned I'm not sure has come up yet, is we'll need flat ground with no gravel. This will be a manual stop for us, so flat solid ground helps a lot to ensure the safety of our crew moving the dumpsters around for service.

Thank you,

Marc Wironen
