Submission Date: 4/7/2025

Comment:

It is very disappointing that residents along Ballyntyne Rd were not given any notification to this development proposal, as increased traffic along Ballyntyne Rd and Croisan Creek Rd will directly impact existing residents. I have concerns about the increase in traffic if Croisan Creek Rd is extended to Ballyntyne Rd due to the road being very narrow, with blind corners and no shoulder. The other concern is that the intersection at Kuebler Rd and Croisan Creek Rd is already a dangerous intersection and has a history of car accidents. Adding more residents will increase the traffic in that area that does not currently have the space to compensate for it safely.
