Caroline,

There is no planned work for this site. Unfortunately, our Air permit was terminated at this site because it was neglected and not renewed on time. I have taken over and am trying to apply for an air permit for this site because DEQ is making me start for the beginning. There should be a preexisting LUCS here, as well as UST permit. I hope this makes sense. In short, they are making me jump through all the hoops again to get this permit.

Good Afternoon Jennifer,

Thank you for providing the LUCS form. Could you please clarify the nature of the planned work? Specifically, does it involve surfacing or the installation of a new tank, or is the work related to the existing infrastructure?
