1700-1800 Blk of 23rd St S.E. Property looking West, City of Salem holding area for gravel, winter sand for sanding of icy covered streets . At any time of day or night the city will load sand or gravel for streets. when unloading gravel and sand the tail gate of these big dump trucks slams and wake the surrounding area neighborhood up So with the apartment right across from this area they would get no rest. We live 4 houses down from this area and I hear it around 4:30 AM , and my bedroom is in the back of the house.

Noise Noise Noise Airport and the Air natural planes flying over head in this area late at night.

Also a holding area for the city of salem port-a-pots

1700-1800 Blk of 23rd St S.E. property looking south of said property. Business that would be facing said property.

1700-1800 Blk of 23rd St S.E. property is adjacent to Oxford alley looking East and facing K-Marts parking lot.

Oxford alley is use for delivery's of materials for surrounding business. If apartment's are aloud on 1700-1800 Blk of 23rd St S.E. property . We will have foot traffic on Oxford alley which would make it dangerous to the business to operate and delivery's made. When you have small childern someone is going to get injured or even dead by a delivery truck. Dealing with Homeless camps at the end of Oxford Alley is not safe here for anyone . We called the city not very long a go to clean up several drug needles and clean up there feces. And the identity theft is terrible in this area , with apartment complex it will only get worse, not better (we know it has happened to use where is are safety). We had to spent the money to fence and gate are property so we would be able and have something left that we worked for.
