Subject: Wren Heights - Additional Information for the Record

Olivia,

I am forwarding the confirmation I received from Tony regarding the new streetlights being installed along Salem Heights Avenue. Tom brought this up at our neighborhood meeting last week to address the neighbor's safety concerns.

Would you please enter on the record and confirm you have received this email?

Thanks,
Mark

Subject: RE: Wren Heights Traffic & Streetlights

Mark,

The project has been approved, PGE has submitted plans, the City has approved plans, they have authorization to begin . . . but we do not control PGE's work schedule.

They have a traffic control permit for flagging on Salem Heights, but the permit expires today. So one might believe the work is already done. On the other hand, they may not have been able to get started because crews were called to a different job, and they will need to come in and get a new permit.

Suffice it to say, the streetlights should be installed very soon (if they are not already there).
