I live on Summer Wind Ct. and the back of my property backs up to Kale Street. The increase in traffic on Kale street will greatly impact my property. As it is, the construction traffic has already impacted my family as the dump trucks and other vehicles speed down Kale. There is no police presence and the construction companies do not adhere to the speed limit on Kale. I can't imagine having another 600+ cars exiting on Kale (speeding)!

I realize there is now one exit on Hazelgreen, but people who live closer to Kale will use Kale!

This traffic causes noise and exhaust and is a danger to the children who walk home on these streets.

Please read this letter out loud and realize the number of people who are affected by having 600+ cars in their neighborhood.

Thank you.

Sheila Case-Howell
