Re: Wren Heights Subdivision Case # Sub-ADJ-02

1. I looked over the plot maps on the above subdivision and although I didn't have any major objections I would like to make a few comments.
2. I have enjoyed the neighborhood for over 49 years the way it is, but was always amazed that this property was not developed a long time ago.
3. I feel this development will sure have it's own personality because of its different lot sizes, street angles and Y-alls, not the standard straight streets. It will help clean up the neighborhood.
4. My final conclusion is that the project would be a plus to the neighborhood.

Sincerely,
Charles Dabler
