REGARDING: Class 3 Site Plan Review / Class 2 Adjustment / Class 1 Design Review Case No. SPR-ADJ-DR20-21

PROJECT ADDRESS: 1795 Fairgrounds Road NE, Salem OR 97301

AMANDA Application No.: 20-106698-RP / 20-106701-ZO / 20-106703-DR

COMMENT PERIOD ENDS: Tuesday, June 02, 2020 at 5:00 P.M.

SUMMARY: A proposal for a new six-unit multi-family complex.

REQUEST: Class 3 Site Plan Review, a Class 2 Adjustment and Class 1 Design Review permit for a six-unit multi-family development. The Adjustments requested are:

- (1) To reduce the minimum lot size from 9,750 (based on density) to 7,345 square feet;
- (2) To reduce the minimum setback abutting a street from 12-feet to 8-feet abutting Fairgrounds Road;
- (3) To reduce the minimum setback abutting a street from 12-feet to 8-feet abutting Winter Street.
- (4) To eliminate the on-site pedestrian path between entrances and open space and use existing public sidewalks.

For property approximately 7,345 square feet in size, zoned CO (Commercial Office), and located at 1795 Fairgrounds Road NE (Marion County Assessor Map and Tax Lot 073W23BA / 3600).

The Planning Department is interested in hearing from you about the attached proposal. Staff will prepare a Decision that includes consideration of comments received during this comment period. We are interested in receiving pertinent, factual information such as neighborhood association recommendations and comments of affected property owners or residents. The complete case file, including all materials submitted by the applicant and any applicable professional studies such as traffic impact analysis, geologic assessments, and stormwater reports, are available upon request.

Comments received by **5:00 P.M., Tuesday, June 02, 2020**, will be considered in the decision process.

Comments received after this date will be not considered. *****PLEASE NOTE: While City offices are closed to the public in response to the COVID-19 pandemic, Staff encourages you to e-mail your comments directly to the Case Manager listed below. Mailed comments will still be accepted but Staff cannot guarantee they will be received before the comment deadline.*****

CASE MANAGER: Olivia Dias, Planner III, Phone: 503-540-2343; E-Mail: odias@cityofsalem.net.

RE: Land Use Activity Case No. SPR-ADJ-DR20-21, 1795 Fairgrounds Rd NE

The City of Salem issued a Request for Comments for a Land Use Case as referenced above. Please find below comments on the impact of the proposed land use change on the Salem-Keizer School District.

IDENTIFICATION OF SCHOOLS SERVING THE SUBJECT PROPERTY

The School District has established geographical school attendance areas for each school known as school boundaries. Students residing in any residence within that boundary are assigned to the school identified to serve that area. There are three school levels, elementary school serving kindergarten thru fifth grade, middle school serving sixth thru eighth grade, and high school serving ninth thru twelfth grade. . The schools identified to serve the subject property are:

School Name	School Type	Grades Served
Grant	Elementary	K thru 5
Parrish	Middle	6 thru 8
North Salem	High	9 thru 12

Table 1

SCHOOL CAPACITY & CURRENT ENROLLMENT

The School District has established school capacities which are the number of students that a particular school is designed to serve. Capacities can change based on class size. School capacities are established by taking into account core infrastructure (gymnasium, cafeteria, library, etc.) counting the number of classrooms and multiplying by the number of students that each classroom will serve. A more detailed explanation of school capacity can be found in the School District's adopted Facility Plan.

School Name	School Type	School Enrollment	School Design Capacity	Enroll./Capacity Ratio
Grant	Elementary	379	448	85%
Parrish	Middle	738	880	84%
North Salem	High	1,889	1,879	101%

Table 2

POTENTIAL ADDITIONAL STUDENTS IN BOUNDARY AREA RESULTING FROM APPROVAL OF LAND USE CASE

The School District anticipates the number of students that may reside at the proposed development based on the housing type, single family (SF), duplex/triplex/four-plex (DU), multi-family (MF) and mobile home park (MHP). The School District commissioned a study by the Mid-Willamette Valley Council of Governments in 2014 to determine an estimate of students per residence, for the Salem-Keizer area, in each of the four housing types. Since the results are averages, the actual number of students in any given housing type will vary. The table below represents the resulting estimates for the subject property:

School Type	Qty. of New Residences	Housing Type	Average Qty. of Students per Residence	Total New Students
Elementary	6	MF	0.201	1
Middle	6	MF	0.077	0
High	6	MF	0.084	1

Table 3

POTENTIAL EFFECT OF THIS DEVELOPMENT ON SCHOOL ENROLLMENT

To determine the impact of the new residential development on school enrollment, the School District compares the school capacity to the current enrollment plus estimates of potential additional students resulting from land use cases over the previous two calendar years. A ratio of the existing and new students is then compared with the school design capacity and expressed as a percentage to show how much of the school capacity may be used.

School Name	School Type	School Enrollment	New Students During Past 2 yrs	New Student from this Case	Total New Students	School Design Cap.	Enroll./Cap. Ratio
Grant	Elem.	379	6	1	7	448	86%
Parrish	Mid.	738	11	0	11	880	85%
North Salem	High	1,889	99	1	100	1,879	106%

Table 4

ESTIMATE OF THE EFFECT ON INFRASTRUCTURE – IDENTIFICATION OF WALK ZONES AND SCHOOL TRANSPORTATION SERVICE

Civic infrastructure needed to provide connectivity between the new residential development and the schools serving the new development will generally require roads, sidewalks and bicycle lanes. When developing within one mile of school(s), adequate pathways to the school should be provided that would have raised sidewalks. If there are a large number of students walking, the sidewalks should be wider to accommodate the number of students that would be traveling the

path at the same time. Bike lanes should be included, crosswalks with flashing lights and signs where appropriate, traffic signals to allow for safe crossings at busy intersections, and any easements that would allow students to travel through neighborhoods. If the development is farther than one mile away from any school, provide bus pullouts and a covered shelter (like those provided by the transit district). Locate in collaboration with the District at a reasonable distance away from an intersection for buses if the distance is greater than ½ mile from the main road. If the distance is less than a ½ mile then raised sidewalks should be provided with stop signs where students would cross intersections within the development as access to the bus stop on the main road. Following is an identification, for the new development location, that the development is either located in a school walk zone or is eligible for school transportation services.

School Name	School Type	Walk Zone or Eligible for School Transportation
Grant	Elementary	Walk Zone
Parrish	Middle	Walk Zone
North Salem	High	Walk Zone

Table 5

ESTIMATE OF NEW SCHOOL CONSTRUCTION NEEDED TO SERVE DEVELOPMENT

The School District estimates the cost of constructing new school facilities to serve our community. The costs of new school construction is estimated using the Rider Levett Bucknall (RLB) North America Quarterly Construction Cost Report and building area per student from Cornerstone Management Group, Inc. estimates. The costs to construct school facilities to serve the proposed development are in the following table.

School Type	Number of Students	Estimate of Facility Cost Per Student*	Total Cost of Facilities for Proposed Development*
Elementary	1	\$54,925	\$54,925
Middle	0	\$64,045	\$0
High	1	\$73,164	\$73,164
TOTAL			\$128,089

Table 6

*Cornerstone Management Group, Inc. estimates based on RLB cost index average, 2019 Fourth Quarter.

Sincerely,

David Fridenmaker

David Fridenmaker, Manager
Planning and Property Services
