### Wetland/Waterway/Other Water Features

- ☒ There are/may be wetlands, waterways or other water features on the property that are subject to the State Removal-Fill Law based upon a review of wetland maps, the county soil survey and other available information.

## Your Activity

- ☒ It appears that the proposed project **may** impact wetlands and **may** require a State permit.

## Applicable Oregon Removal-Fill Permit Requirement(s)

- ☒ A state permit is required for 50 cubic yards or more of fill removal or other ground alteration in wetlands, below ordinary high water of waterways, within other waters of the state, or below highest measured tide.

## Closing Information

### Additional Comments

It appears that a wetland delineation report (WD2021-0178) for this project site is on file and currently under review. DSL shall provide a jurisdictional determination regarding on-site features after the report has been reviewed.

If 50 cubic yards or greater of impacts (fills, removals, or other ground alterations) are anticipated within the wetland boundary, a state permit may be required for this activity.

**This is a preliminary jurisdictional determination and is advisory only.**

This report is for the State Removal-Fill law only. City or County permits may be required for the proposed activity.

- ☒ A Federal permit may be required by The Army Corps of Engineers: (503)808-4373

### Contact Information

- For information on permitting, use of a state-owned water, wetland determination or delineation report requirements please contact the respective DSL Aquatic Resource, Proprietary or Jurisdiction Coordinator for the site county. The current list is found at: <http://www.oregon.gov/dsl/ww/pages/wwstaff.aspx>
- The current Removal-Fill permit and/or Wetland Delineation report fee schedule is found at: <https://www.oregon.gov/dsl/WW/Documents/Removal-FillFees.pdf>
