Hi Paul,

Please upload the revisions directly to the permit folder.

Thank you!

Attached are the updates and corrections for our site plan review including the revised site plan, the signed lease with the city of Salem and the TGE form.

Also, the correct address is :3980 Airway Drive

The maximum height of the hangar will be 30'

There will be no employees connected to this hangar.

The revised site plan includes the bumper guards for the parking spaces and the bicycle parking space.

Let me know if you need anything further.
