Councilor Phillips,

We will include this communication in the case record. The subdivision application has been deemed complete and notice went out last week – see attached. It is still being reviewed by City staff, but we are happy to meet and discuss.

Thanks,

- Lisa | 503-540-2381

Dan Atchison,

I think that I may have gotten an ex parte communication regarding the Potential development of the Meyers Family farm.

My family walked to Trader Joes today. As we walked past the Meyer's family farm property, we saw posted signage that make it look like a development may have gone into the application process at the city, which could make the email from Mark Wigg an ex parte communication. If possible, could we add Mark's email to the official record. I haven't really read his email details.

Peter and Lisa,

Is there an application regarding the Meyer's family farm property? If so, I'll probably need to talk with you to understand the implications of this property that we have discussed previously.

Sincerely, Trevor Phillips  
Ward 3, Salem City Councilor

Jerry,

It is wonderful that you held the Fairview development to the approved plan that protects the 14 acres on the corner of Pringle and Battle Creek roads.

The others in this email are working to protect the Meyer Farm, opposite the Fairview protected area. When the city protects both we will have a string of parkland from Judson to Leslie and to the industrial area. This will help wildlife and entice more people to walk.

Mark,

Thank you for spending time talking with me yesterday. I appreciate the suggestions that you had on how we might work together. I am including a couple of maps plus a picture of a couple of residents of the woods. These are two of the three baby great horned owls that spent a couple of weeks with us this spring learning how to fly.

Thanks again  
Jerry Mumper  
503-910-5651

P.S. As I am computer illiterate, I am having trouble sending the maps I wanted to send. I will keep trying, but in the meantime the property is parcel 2 of P.P. 2015-029
