Dear Ladies and/or Sirs,

I am a very concerned citizen writing to you today to voice my passionate objections to the proposed removal of hundreds of trees unnecessarily

My family and I moved to Oregon because of the positive environmental city planning to reduce urban sprawl this new subdivision in or states capitol flies in the face of that care of the environmental impact. I would have thought that considering the past two summers of out of control fires in this particular region would give you all pause on needlessly cutting down more trees, Honestly what are you people thinking? We need all the trees we have in this area to help clean reduce the staggering amounts of pollution in the air. To lose 30% of the huge decades old trees is criminal in today's climate.

I implore you all to think about the impact this HUGE loss of natural habitat would have on the children that live and play in the area. There are TWO children's schools that would greatly benefit from cleaner air as well.
