REGARDING: Subdivision Case No. SUB21-09
PROJECT ADDRESS: 4540 Pringle Rd SE, Salem OR 97302
AMANDA Application No.: 21-113071-LD
COMMENT PERIOD ENDS: October 1, 2021

SUMMARY: A proposal to develop 29.68 acres into 138 single family lots in two phases of development.

REQUEST: A phased subdivision tentative plan to divide approximately 29.68 acres into 138 single family lots ranging in size from 4,000 square feet to 3.64 acres in two phases of development. The applicant is requesting alternative street standards to:

- 1) Increase the maximum grade for Hilfiker Lane SE (Type B Collector Street) from 8 percent to 9.3 percent;
- 2) Increase the maximum grade for 12th Street SE (Local Street) from 12 percent to 17.9 percent; and
- 3) Increase the street spacing and connectivity standards in SRC Chapter 803 to allow proposed Hilfiker Lane SE, Ramsay Road SE and Hillrose Street SE to exceed the 600-foot block length and 600-foot street connectivity standards in SRC Chapter 803.

The subject property is approximately 29.68 acres in size, zoned RA (Residential Agriculture) and RS (Single Family Residential), and located at 4540 Pringle Road SE - 97302 (Marion County Assessor Map and Tax Lot numbers: 083W11BC / 03000 and 03200).

The Planning Division is interested in hearing from you about the attached proposal. Staff will prepare a Decision that includes consideration of comments received during this comment period. We are interested in receiving pertinent, factual information such as neighborhood association recommendations and comments of affected property owners or residents. The complete case file, including all materials submitted by the applicant and any applicable professional studies such as traffic impact analysis, geologic assessments, and stormwater reports, are available upon request.

Comments received by 5:00 p.m. Friday, October 1, 2021, will be considered in the decision process. Comments received after this date will be not considered. *Comments submitted are public record. This includes any personal information provided in your comment such as name, email, physical address and phone number. Mailed comments can take up to 7 calendar days to arrive at our office. To ensure that your comments are received by the deadline, we recommend that you e-mail your comments to the Case Manager listed below.*

CASE MANAGER: Aaron Panko, Planner III, City of Salem, Planning Division; 555 Liberty St SE, Room 305, Salem, OR 97301; Phone: 503-540-2356; E-Mail: APanko@cityofsalem.net.

RE: Land Use Activity Case No. SUB21-09, 4540 Pringle Rd SE

The City of Salem issued a Request for Comments for a Land Use Case as referenced above. Please find below comments on the impact of the proposed land use change on the Salem-Keizer School District.

IDENTIFICATION OF SCHOOLS SERVING THE SUBJECT PROPERTY

The School District has established geographical school attendance areas for each school known as school boundaries. Students residing in any residence within that boundary are assigned to the school identified to serve that area. There are three school levels, elementary school serving kindergarten thru fifth grade, middle school serving sixth thru eighth grade, and high school serving ninth thru twelfth grade. . The schools identified to serve the subject property are:

School Name	School Type	Grades Served
Morningside/Pringle	Elementary	K thru 5
Leslie/Judson	Middle	6 thru 8
South Salem	High	9 thru 12

Table 1

SCHOOL CAPACITY & CURRENT ENROLLMENT

The School District has established school capacities which are the number of students that a particular school is designed to serve. Capacities can change based on class size. School capacities are established by taking into account core infrastructure (gymnasium, cafeteria, library, etc.) counting the number of classrooms and multiplying by the number of students that each classroom will serve. A more detailed explanation of school capacity can be found in the School District's adopted Facility Plan.

School Name	School Type	School Enrollment	School Design Capacity	Enroll./Capacity Ratio
Morningside/Pringle	Elementary	275/501	432/663	64/76%
Leslie/Judson	Middle	757/905	944/1.059	80/85%
South Salem	High	2,223	2,248	99%

Table 2

POTENTIAL ADDITIONAL STUDENTS IN BOUNDARY AREA RESULTING FROM APPROVAL OF LAND USE CASE

The School District anticipates the number of students that may reside at the proposed development based on the housing type, single family (SF), duplex/triplex/four-plex (DU), multi-family (MF) and mobile home park (MHP). The School District commissioned a study by the Mid-Willamette Valley Council of Governments in 2014 to determine an estimate of students per residence, for the Salem-Keizer area, in each of the four housing types. Since the results are averages, the actual number of students in any given housing type will vary. The table below represents the resulting estimates for the subject property:

School Type	Qty. of New Residences	Housing Type	Average Qty. of Students per Residence	Total New Students
Elementary	120/18	SF	0.194	23/3
Middle			0.101	12/2
High			0.143	20

Table 3

POTENTIAL EFFECT OF THIS DEVELOPMENT ON SCHOOL ENROLLMENT

To determine the impact of the new residential development on school enrollment, the School District compares the school capacity to the current enrollment plus estimates of potential additional students resulting from land use cases over the previous two calendar years. A ratio of the existing and new students is then compared with the school design capacity and expressed as a percentage to show how much of the school capacity may be used.

School Name	School Type	School Enrollment	New Students During Past 2 yrs	New Student from this Case	Total New Students	School Design Cap.	Enroll./Cap. Ratio
Morningside/Pringle	Elem.	275/501	69/41	23/3	92/44	432/663	85/82%
Leslie/Judson	Mid.	757/905	32/71	12/2	44/73	944/1.059	85/92%
South Salem	High	2,223	129	20	149	2,248	106%

Table 4

ESTIMATE OF THE EFFECT ON INFRASTRUCTURE – IDENTIFICATION OF WALK ZONES AND SCHOOL TRANSPORTATION SERVICE

Civic infrastructure needed to provide connectivity between the new residential development and the schools serving the new development will generally require roads, sidewalks and bicycle lanes. When developing within one mile of school(s), adequate pathways to the school should be provided that would have raised sidewalks. If there are a large number of students walking, the

sidewalks should be wider to accommodate the number of students that would be traveling the path at the same time. Bike lanes should be included, crosswalks with flashing lights and signs where appropriate, traffic signals to allow for safe crossings at busy intersections, and any easements that would allow students to travel through neighborhoods. If the development is farther than one mile away from any school, provide bus pullouts and a covered shelter (like those provided by the transit district). Locate in collaboration with the District at a reasonable distance away from an intersection for buses if the distance is greater than ½ mile from the main road. If the distance is less than a ½ mile then raised sidewalks should be provided with stop signs where students would cross intersections within the development as access to the bus stop on the main road. Following is an identification, for the new development location, that the development is either located in a school walk zone or is eligible for school transportation services.

School Name	School Type	Walk Zone or Eligible for School Transportation
Morningside/Pringle	Elementary	Eligible for School Transportation
Leslie/Judson	Middle	Walk Zone / Eligible for School Transportation
South Salem	High	Eligible for School Transportation

Table 5

ESTIMATE OF NEW SCHOOL CONSTRUCTION NEEDED TO SERVE DEVELOPMENT

The School District estimates the cost of constructing new school facilities to serve our community. The costs of new school construction is estimated using the Rider Levett Bucknall (RLB) North America Quarterly Construction Cost Report and building area per student from Cornerstone Management Group, Inc. estimates. The costs to construct school facilities to serve the proposed development are in the following table.

School Type	Number of Students	Estimate of Facility Cost Per Student*	Total Cost of Facilities for Proposed Development*
Elementary	26	\$60,840	\$1,521,000
Middle	14	\$72,735	\$1,018,290
High	20	\$84,630	\$1,692,600
TOTAL			\$4,231,890

Table 6

*Cornerstone Management Group, Inc. estimates based on RLB cost index average, 2021 First Quarter.

Sincerely,

David Fridenmaker, Manager
Planning and Property Services

c: Mike Wolfe, Chief Operations Officer, David Hughes, Director – Custodial, Property and Auxiliary Services, T.J. Crockett, Director of Transportation
