**Subject:** project in the Southeast Mill Creek association area

Hi there, AAI engineering is working on a project at 0 Turner Rd. SE. in Salem. (tax map/lot#:082W07C00200)  
A requirement of the Land Use process is that we reach out to you and let you know what we are proposing.

We are proposing a single, 208,000 SF industrial building and associated site work with some truck parking. The project will meet all the development standards of the zone. No adjustments or Variances will be requested. Please refer to the Preliminary Site Plan.

I would be happy keep you updated on the project and answer any questions you may have.

Thanks,

**Beth Zauner | Planner**
