Received by	Date:	Receipt Number:

*We are planning fixed-route transit to serve Strong Rd and Reed Rd in the near future, therefore, we support any street improvements and street access this project may trigger in order to be accessible by fixed-route public transportation.*

*That being said, if this facility is not meant to be accessible by public transportation, then it becomes a moot point. The reason we always submit these types of comments is because street improvements and street access are outside of Cherriots jurisdiction. Really, all we're saying is that we'd like to make the developer and the City aware that public transportation is being planned to travel on Strong Rd and Reed Rd in the near future. Whether or not the appropriate street access and improvements necessary for accessing said public transportation will exist is ultimately going to be dictated by city code and processes.*  
Jolynn Franke, Transit Planner, Cherriot 3/1/22
