Subject: response to 1440 9 houses proposal

Follow Up Flag: Follow up
Flag Status: Flagged

To whom it may concern

I do not wish to have NINE houses built on the lot next to me (1470 is my address). I especially do not want any access road to Keubler Blvd. When that lot was purchased and the home torn down, I was told they hoped to get approval for THREE homes to be built there. I would NOT have a problem with three homes there but NINE seems to be overkill. There are several nice homes across the street from me and I would think that NINE houses would bring their value down. I also do not want any kind of access street to Keubler. That would cause traffic that would be a definite hindrance to this now quiet neighborhood. We already have Stroh Road for Keubler access. The traffic, due to the twelve homes being built across the street, has increased greatly. To add NINE homes to that would cause traffic which would not make sense. NINE homes on that small of a lot would possibly entice those who may not care properly for their homes.

Thank you for considering all I have said concerning this plan. I will await your email to me.
Carroll Klingbale

BY: _____

SUMMARY: A tentative phased subdivision plan to divide approximately 0.75 acre into nine lots.

REQUEST: A tentative phased subdivision plan to divide approximately 0.75 acre into nine lots ranging in size from 2,000 square feet to 11,300 square feet. The proposal includes creation of Lot 9, a land area containing Kuebler BLVD, which is dedicated to the City of Salem.

The subject property is approximately 0.75 acre in size, zoned RA (Residential Agriculture), and located at 1440 Boone Road SE (Marion County Assessor Map and Tax Lot Numbers 083W14BB / 100 and 200 and a portion of Kuebler Blvd).

The Planning Division is interested in hearing from you about the attached proposal. Staff will prepare a Decision that includes consideration of comments received during this comment period. We are interested in receiving pertinent, factual information such as neighborhood association recommendations and comments of affected property owners or residents. The complete case file, including all materials submitted by the applicant and any applicable professional studies such as traffic impact analysis, geologic assessments, and stormwater reports, are available upon request.

Comments received by 5:00 p.m. Wednesday, November 9, 2022, will be considered in the decision process. Comments received after this date will be not considered. Comments submitted are public record. This includes any personal information provided in your comment such as name, email, physical address and phone number. Mailed comments can take up to 7 calendar days to arrive at our office. To ensure that your comments are received by the deadline, we recommend that you e-mail your comments to the Case Manager listed below.

CASE MANAGER: Olivia Dias, Current Planning Manager, City of Salem, Planning Division; 555 Liberty St SE, Room 305, Salem, OR 97301; Phone: 503-540-2343; E-Mail: odias@cityofsalem.net.

For information about Planning in Salem, please visit: <http://www.cityofsalem.net/planning>

PLEASE CHECK THE FOLLOWING THAT APPLY:

☐ 1. I have reviewed the proposal and have no objections to it.

☒ 2. I have reviewed the proposal and have the following comments: I am very concerned about parking for that many units in such a small area. Parking is already an issue on Boone and surrounding side streets. City of Salem please allow for more safe parking.

PLEASE CHECK THE FOLLOWING THAT APPLY:

☐ 1. I have reviewed the proposal and have no objections to it.

☒ 2. I have reviewed the proposal and have the following comments: WITH ABOUT 50 NEW HOMESITES ALREADY UNDER DEVELOPMENT ON BOONE RD SE, WHAT IS THE PLAN FOR WIDENING THE STREET? ITS ONLY A ONE LANE STREET WHEN ON STREET PARKING IS CONSIDERED, AND NO SIDE-WALKS, ETC. NEEDS IMPROVEMENTS IF MORE HOMES ARE COMING.

RE: Land Use Activity Case No. SUB22-10 at 1440 Boone Rd SE

The City of Salem issued a Request for Comments for a Land Use Case as referenced above. Please find below comments on the impact of the proposed land use change on the Salem-Keizer School District.

IDENTIFICATION OF SCHOOLS SERVING THE SUBJECT PROPERTY

The School District has established geographical school attendance areas for each school known as school boundaries. Students residing in any residence within that boundary are assigned to the school identified to serve that area. There are three school levels, elementary school serving kindergarten thru fifth grade, middle school serving sixth thru eighth grade, and high school serving ninth thru twelfth grade. . The schools identified to serve the subject property are:

School Name	School Type	Grades Served
Pringle	Elementary	K thru 5
Judson	Middle	6 thru 8
South Salem	High	9 thru 12

Table 1

SCHOOL CAPACITY & CURRENT ENROLLMENT

The School District has established school capacities which are the number of students that a particular school is designed to serve. Capacities can change based on class size. School capacities are established by taking into account core infrastructure (gymnasium, cafeteria, library, etc.) counting the number of classrooms and multiplying by the number of students that each classroom will serve. A more detailed explanation of school capacity can be found in the School District's adopted Facility Plan.

School Name	School Type	School Enrollment	School Design Capacity	Enroll./Capacity Ratio
Pringle	Elementary	515	663	78%
Judson	Middle	860	1,059	81%
South Salem	High	2,258	2,248	100%

Table 2

POTENTIAL ADDITIONAL STUDENTS IN BOUNDARY AREA RESULTING FROM APPROVAL OF LAND USE CASE

The School District anticipates the number of students that may reside at the proposed development based on the housing type, single family (SF), duplex/triplex/four-plex (DU), multi-family (MF) and mobile home park (MHP). The School District commissioned a study by the Mid-Willamette Valley Council of Governments in 2021 to determine an estimate of students per residence, for the Salem-Keizer area, in each of the four housing types. Since the results are averages, the actual number of students in any given housing type will vary. The table below represents the resulting estimates for the subject property:

School Type	Qty. of New Residences	Housing Type	Average Qty. of Students per Residence	Total New Students
Elementary	8	DU	0.221	2
Middle			0.126	1
High			0.155	1

Table 3

POTENTIAL EFFECT OF THIS DEVELOPMENT ON SCHOOL ENROLLMENT

To determine the impact of the new residential development on school enrollment, the School District compares the school capacity to the current enrollment plus estimates of potential additional students resulting from land use cases over the previous two calendar years. A ratio of the existing and new students is then compared with the school design capacity and expressed as a percentage to show how much of the school capacity may be used.

School Name	School Type	School Enrollment	New Students During Past 2 yrs	New Student from this Case	Total New Students	School Design Cap.	Enroll./Cap. Ratio
Pringle	Elem.	515	118	2	120	663	96%
Judson	Mid.	860	166	1	167	1,059	97%
South Salem	High	2,258	271	1	272	2,248	113%

Table 4

ESTIMATE OF THE EFFECT ON INFRASTRUCTURE – IDENTIFICATION OF WALK ZONES AND SCHOOL TRANSPORTATION SERVICE

Civic infrastructure needed to provide connectivity between the new residential development and the schools serving the new development will generally require roads, sidewalks and bicycle lanes. When developing within one mile of school(s), adequate pathways to the school should be provided that would have raised sidewalks. If there are a large number of students walking, the sidewalks should be wider to accommodate the number of students that would be traveling the

path at the same time. Bike lanes should be included, crosswalks with flashing lights and signs where appropriate, traffic signals to allow for safe crossings at busy intersections, and any easements that would allow students to travel through neighborhoods. If the development is farther than one mile away from any school, provide bus pullouts and a covered shelter (like those provided by the transit district). Locate in collaboration with the District at a reasonable distance away from an intersection for buses if the distance is greater than ½ mile from the main road. If the distance is less than a ½ mile then raised sidewalks should be provided with stop signs where students would cross intersections within the development as access to the bus stop on the main road. Following is an identification, for the new development location, that the development is either located in a school walk zone or is eligible for school transportation services.

School Name	School Type	Walk Zone or Eligible for School Transportation
Pringle	Elementary	Eligible for School Transportation
Judson	Middle	Walk Zone
South Salem	High	Eligible for School Transportation

Table 5

ESTIMATE OF NEW SCHOOL CONSTRUCTION NEEDED TO SERVE DEVELOPMENT

The School District estimates the cost of constructing new school facilities to serve our community. The costs of new school construction is estimated using the Rider Levett Bucknall (RLB) North America Quarterly Construction Cost Report and building area per student from Cornerstone Management Group, Inc. estimates. The costs to construct school facilities to serve the proposed development are in the following table.

School Type	Number of Students	Estimate of Facility Cost Per Student*	Total Cost of Facilities for Proposed Development*
Elementary	2	\$64,220	\$128,440
Middle	1	\$76,882	\$76,882
High	1	\$89,544	\$89,544
TOTAL			\$294,866

Table 6

*Cornerstone Management Group, Inc. estimates based on RLB cost index average, 2022 First Quarter.

Sincerely,

David Fridenmaker, Manager
Planning and Property Services

c: Robert Silva, Chief Operations Officer, David Hughes, Director of Operations & Logistics, T.J. Crockett, Director of Transportation
