REQUEST FOR COMMENTS

Si necesita ayuda para comprender esta información, por favor llame 503-588-6173

REGARDING: Class 3 Site Plan Review / Class 2 Adjustment / Class 2 Driveway Approach Permit / Class 1 Design Review Case No. SPR-ADJ-DAP-DR22-45

PROJECT ADDRESS: 4345 Sunnyside Rd SE, Salem OR 97302

AMANDA Application No.: 22-107215-RP, 22-107216-ZO, 22-108312-ZO, 22-107217-DR

COMMENT PERIOD ENDS: November 18, 2022

SUMMARY: A proposal for a new 24-unit multi-family housing development.

REQUEST: A consolidated application for a Class 3 Site Plan Review, Class 2 Adjustments, Class 2 Driveway Approach Permit, and Class 1 Design Review for development of a multi-family apartment building consisting of 24 units, parking, and associated site improvements. The Class 2 adjustments requested are to:

- (1) Reduce the 12-foot setback abutting a street to 6 feet from the special setback line (SRC 521.010(b));
- (2) Reduce the 10-foot landscaped setback along the south property line to 6 feet (SRC 521.010(b));
- (3) Reduce the 20-foot setback for a vehicle use area abutting the RS zone to 15 feet (SRC 702.020(d)(3));
- (4) Reduce the minimum required tree canopy spacing along the perimeter of the parking area (SRC 702.020(b)(7)); and
- (5) Reduce the required driveway spacing standard of 370 feet for a driveway approach along Sunnyside Rd SE, a Minor Arterial street (SRC 804.035(d)).

The subject property is approximately 1 acre in size, zoned CO (Commercial Office), and located at 4345 Sunnyside Road SE - 97302 (Marion County Assessors Map and Tax Lot number: 083W10AC / 600).

The Planning Division is interested in hearing from you about the attached proposal. Staff will prepare a Decision that includes consideration of comments received during this comment period. We are interested in receiving pertinent, factual information such as neighborhood association recommendations and comments of affected property owners or residents. The complete case file, including all materials submitted by the applicant and any applicable professional studies such as traffic impact analysis, geologic assessments, and stormwater reports, are available upon request.

Comments received by 5:00 p.m. Friday, November 18, 2022, will be considered in the decision process. Comments received after this date will be not considered. *Comments submitted are public record. This includes any personal information provided in your comment such as name, email, physical address and phone number. Mailed comments can take up to 7 calendar days to arrive at our office. To ensure that your comments are received by the deadline, we recommend that you e-mail your comments to the Case Manager listed below.*

CASE MANAGER: Jamie Donaldson, Planner II, City of Salem, Planning Division; 555 Liberty St SE, Room 305, Salem, OR 97301; Phone: 503-540-2328; E-Mail: jdonaldson@cityofsalem.net.

RE: Land Use Activity Case No. SPR-ADJ-DAP-DR22-45, 4345 Sunnyside Rd. SE

The City of Salem issued a Request for Comments for a Land Use Case as referenced above. Please find below comments on the impact of the proposed land use change on the Salem-Keizer School District.

IDENTIFICATION OF SCHOOLS SERVING THE SUBJECT PROPERTY

The School District has established geographical school attendance areas for each school known as school boundaries. Students residing in any residence within that boundary are assigned to the school identified to serve that area. There are three school levels, elementary school serving kindergarten thru fifth grade, middle school serving sixth thru eighth grade, and high school serving ninth thru twelfth grade. . The schools identified to serve the subject property are:

School Name	School Type	Grades Served
Wright	Elementary	K thru 5
Judson	Middle	6 thru 8
Sprague	High	9 thru 12

Table 1

SCHOOL CAPACITY & CURRENT ENROLLMENT

The School District has established school capacities which are the number of students that a particular school is designed to serve. Capacities can change based on class size. School capacities are established by taking into account core infrastructure (gymnasium, cafeteria, library, etc.) counting the number of classrooms and multiplying by the number of students that each classroom will serve. A more detailed explanation of school capacity can be found in the School District's adopted Facility Plan.

School Name	School Type	School Enrollment	School Design Capacity	Enroll./Capacity Ratio
Wright	Elementary	378	510	74%
Judson	Middle	860	1,059	81%
Sprague	High	1,857	2,248	83%

Table 2

POTENTIAL ADDITIONAL STUDENTS IN BOUNDARY AREA RESULTING FROM APPROVAL OF LAND USE CASE

The School District anticipates the number of students that may reside at the proposed development based on the housing type, single family (SF), duplex/triplex/four-plex (DU), multi-family (MF) and mobile home park (MHP). The School District commissioned a study by the Mid-Willamette Valley Council of Governments in 2021 to determine an estimate of students per residence, for the Salem-Keizer area, in each of the four housing types. Since the results are averages, the actual number of students in any given housing type will vary. The table below represents the resulting estimates for the subject property:

School Type	Qty. of New Residences	Housing Type	Average Qty. of Students per Residence	Total New Students
Elementary	24	MF	0.164	4
Middle			0.085	2
High			0.096	2

Table 3

POTENTIAL EFFECT OF THIS DEVELOPMENT ON SCHOOL ENROLLMENT

To determine the impact of the new residential development on school enrollment, the School District compares the school capacity to the current enrollment plus estimates of potential additional students resulting from land use cases over the previous two calendar years. A ratio of the existing and new students is then compared with the school design capacity and expressed as a percentage to show how much of the school capacity may be used.

School Name	School Type	School Enrollment	New Students During Past 2 yrs	New Student from this Case	Total New Students	School Design Cap.	Enroll./Cap. Ratio
Wright	Elem.	378	0	4	4	510	75%
Judson	Mid.	860	167	2	169	1,059	97%
Sprague	High	1,857	60	2	62	2,248	85%

Table 4

ESTIMATE OF THE EFFECT ON INFRASTRUCTURE – IDENTIFICATION OF WALK ZONES AND SCHOOL TRANSPORTATION SERVICE

Civic infrastructure needed to provide connectivity between the new residential development and the schools serving the new development will generally require roads, sidewalks and bicycle lanes. When developing within one mile of school(s), adequate pathways to the school should be provided that would have raised sidewalks. If there are a large number of students walking, the sidewalks should be wider to accommodate the number of students that would be traveling the

path at the same time. Bike lanes should be included, crosswalks with flashing lights and signs where appropriate, traffic signals to allow for safe crossings at busy intersections, and any easements that would allow students to travel through neighborhoods. If the development is farther than one mile away from any school, provide bus pullouts and a covered shelter (like those provided by the transit district). Locate in collaboration with the District at a reasonable distance away from an intersection for buses if the distance is greater than ½ mile from the main road. If the distance is less than a ½ mile then raised sidewalks should be provided with stop signs where students would cross intersections within the development as access to the bus stop on the main road. Following is an identification, for the new development location, that the development is either located in a school walk zone or is eligible for school transportation services.

School Name	School Type	Walk Zone or Eligible for School Transportation
Wright	Elementary	Walk Zone
Judson	Middle	Walk Zone
Sprague	High	Eligible for School Transportation

Table 5

ESTIMATE OF NEW SCHOOL CONSTRUCTION NEEDED TO SERVE DEVELOPMENT

The School District estimates the cost of constructing new school facilities to serve our community. The costs of new school construction is estimated using the Rider Levett Bucknall (RLB) North America Quarterly Construction Cost Report and building area per student from Cornerstone Management Group, Inc. estimates. The costs to construct school facilities to serve the proposed development are in the following table.

School Type	Number of Students	Estimate of Facility Cost Per Student*	Total Cost of Facilities for Proposed Development*
Elementary	4	\$64,220	\$256,880
Middle	2	\$76,882	\$153,764
High	2	\$89,544	\$179,088
TOTAL			\$589,732

Table 6

*Cornerstone Management Group, Inc. estimates based on RLB cost index average, 2022 First Quarter.

Sincerely,

David Fridenmaker, Manager
Planning and Property Services

c: Robert Silva, Chief Operations Officer, David Hughes, Director of Operations & Logistics, T.J. Crockett, Director of Transportation
