Subject: We do not agree with this in the least bit

Hi, my wife and I just recently moved to Salem, Oregon in April of this year. We do not agree with the decision to demolish Bayberry Apartments in Salem, Oregon. We love our apartment, the residents and the location we are at. We do not want to move and have a modern day sad depressing new apartment complex filled with entitled spoiled more then likely TikTok, Instagram influencers where we once lived. My wife is a disabled veteran who can not or should not have to move anytime someone with deep pockets wants to buy a place and uproot all the residents, my wife has severe anxiety and for the first time she's okay being outside interacting with people, getting to know the neighbors, if she wants a coffee she can go to the Dutch Bros less then 1 minute away. She loves the location she is in. We moved from California and lived in the desert for years, being in Oregon everything has changed for the better including location. We went from not being able to do anything to be able to do everything because of where we are. There are so many older residents located at the Bayberry Apartments, in the unit below my unit of 1035 Liberty St SE, Salem, OR 97302, there is an older woman who have lived at Bayberry Apartments for the 17 years, there is another older gentlemen who has mobility issues and also lives here. There are families with children who also live here. What you and your employers are trying to do is plain wrong. How would you feel if you got a notice in the mail about a company wanting to buy your property and demolish it? If you can sit wherever you are and read this and say you wouldn't mind, you are a liar. This company needs to pay residents expenses whatever the cost, moving cost if you want this property so bad. Myself, my wife and others love it here and we would appreciate if you take this proposal go somewhere else. Why cause unnecessary stress to a bunch a people? My wife and I just moved here and we have family coming to visit us frequently from other states, this is our home and we want it to stay that way. Please take this proposal elsewhere! Have a great day.
