Subject: Questions for Safe Parking Location at 5020 Liberty Rd S

Hi Josh,

I also wanted to reach out regarding two other things. First, I was wondering if you could show on your site plan or the code response or provide it some other way that the solid waste receptacle provided would be "one 32 cubic foot garbage receptacle for each vehicle on the premises". Second, I wanted to know if RVs are not allowed at this location? If they are not, please update the code response document to reflect this. If they are then please update the operating agreement to state something to the effect of "any vehicles possessing a septic system must be emptied and free of leaks prior to admittance to the site". If you have any questions, please let me know.

Thanks,

Abigail Pedersen
